

Envoy makes it easy to attract new subscribers, send beautiful email newsletters and view stunning reports, all from within your browser. You can also invite colleagues and others to securely access your account and manage campaigns.

Design Beautiful Emails

- Create and send mobile-friendly email campaigns, with no coding required
- Run A/B split tests
- Preview your campaigns in 20+ email clients

Build an Audience

- Share your campaigns on Twitter and Facebook
- Automatically send email updates from your blog or site
- Setup autoresponders and drip campaigns

View Detailed Reports

- See who's opening, clicking and sharing your campaign in real-time
- View reports on your mobile device
- Track beyond-the-click with Google Analytics integration

Built for You!

- Power your campaigns with our rock-solid infrastructure
- Access our extensive documentation
- Link your account to apps like Wufoo, Highrise, ExpressionEngine and more

Start sending sophisticated email campaigns using Envoy - for more information, get in touch.
